

P.E.P. TECHNOLOGY[®]

Automated Manufacturing with High Tech Software

TIF / Raster To Vector To A Finished Cutter Path Via P.E.P. Technology

Starting file size at the time of loading into P.E.P. 23,856 geometries
After converting to a finished cutter path 9,447 geometries

CONVERTSION TIME
to a finished cutter path
11 ...Seconds

Details of the conversion process...

P.E.P. ERROR CORRECTION REPORT

Date : 06-30-2005

CAD File : C:\DXF\DEMO\DOT_SCENERY_02_08.DXF

<u>DESCRIPTION</u>	<u>STATUS</u>	<u>COMMENTS</u>
Duplicate geometry	11360 found	11360 duplicate geometry found and removed
Overlapping geometry	305 found	305 overlapping geometry found and removed
Combining arc geometry	Ok	No arcs needed combining
Combining line geometry	2747 found	2747 lines combined
Orphan geometry	Ok	No orphan geometry were found
Blend alignments	Ok	All blends were ok
Arc slot realignment	Ok	No arc slots needed realigning
Gaps	5 found	Size=.0196, between geo 1873 & 1876 Size=.0426, between geo 4816 & 4887 Size=.0494, between geo 8597 & 8599 Size=.02, between geo 9062 & 9063 Size=.0463, between geo 9155 & 9150
Blend alignments	Ok	All blends were ok
Shallow arc-arc intersects	Ok	No shallow arc-arc intersects found
Conversion time	00:00:11	
Overall size	9.9328 x 14.2255
