Joe Keblesh
711 West 17th Street, Bldg. E-11
Costa Mesa, CA. 92627

Dear Joe Keblesh,

P.E.P., what can we say! It's great!

I was able to eliminate our whole engineering department by using the lights out mode. We have estimated that by moving the engineering to our sale department, that alone will save us more than \$40,000.00+ the first year.

After the system is fully integrated into our operation we believe there will be another \$30,000.00 in savings of time and material utilization at the machine.

Thank you again.

Sincerely,

Matthew E. Berger
Vice President
Integrity Steel Co.
